EDUCATION

RENSSELAER POLYTECHNIC INSTITUTE (RPI)

Bachelor of Computer Science & of Information Technologies and Web Sciences (ITWS)

Honor Societies: Upsilon Pi Epsilon (CS), Gamma Nu Eta (ITWS)

Cumulative GPA: **4.0/4.0**

Troy, NY

Expected June 2027

EXPERIENCE

HUML HEALTH

May 2025 - August 2025

Software Engineer Internship

- Working with an early stage healthcare startup's software team, delivered a platform for addiction recovery to multiple rehabilitation facilities and reduced time to launch by 15%.
- Deployed 30 features and 20 bug fixes to production across their mobile app (in React Native), web application (in React and Typescript), backend services (in Node, hosted on AWS), and database (in Postgres DB with a Prisma ORM). Aided in modernizing their existing legacy code base and influenced overall architectural designs.

ALERTGY

September 2024 - December 2024

Software Engineer Internship

- While on the company's engineering team: Developed software that streamlined laboratory testing of non-invasive glucometer technology. Refactored existing codebase to improve usability and maintainability (in Python). Helped create AI dataframes utilizing deep learning neural networks (via content libraries Tensor Flow and SKLearn). Assisted in preserving extensive test result data (in Firebase).
- Single-handedly designed (in Figma) and created a web application (in HTML/CSS) and a mobile app (in .NET MAUI) that processed and displayed biometric data enabling live hardware demonstrations to potential investors at several conferences.

SOAPBOX HOSTING LLC

May 2024 - August 2024

Software Engineer Internship

- Assisted in software development for a podcast hosting platform. Deployed 20 updates to production on their web application including: new customer facing features (in Astro JS and React), database schema alterations and migrations (using Prisma ORM, and background workers that upload content to cloud storage automatically).

EXTRACURRICULARS

HELP HER STEM (RESEARCH PROJECT)

January 2024 - December 2024

Under Director Richard Plotka @ RPI

- Built an anonymous advice forum web-application for underrepresented gender minorities in STEM using React, Tailwind CSS, and an SQL database alongside a group of three.

HACK RPI

Troy, NY

(2023 - Present) Organizer/Participant

August 2023 - Present

- Helped organize 2 hackathons totaling 500+ attendees. Organized day-of-logistics and made designs used on the club website, on promotional items, and in advertisements (in Procreate and Figma).
- (2024) Won hackathon division for 'Best App Development' for CENT-TRACK, an educational financial tracker mobile-application (using React Native).
- (2025) Won hackathon division for 'Ship Fast, Ship Often - Build a Payworthy MVP in a Weekend' for ACCESS-A-CITY, a disability inclusive event planner application (using React Native).

UNION PROGRAMMING ACTIVITIES COMMITTEE (UPAC)

Troy, NY

(2023 - 2024) Concerts Division Treasurer; (2024 - Present) Vice Chair

August 2023 - Present

- Led operations and planning for one of RPI's largest scale student-run organizations. Collaborated with artists, vendors, and campus departments to put on and staff 60+ annual events and 100+ student activities, each drawing 100-800+ attendees.
- Events include major concerts, comedy shows, weekly movie nights, field days, and coordination of the student government election system.

ACM - WOMEN IN COMPUTING CHAPTER

Troy, NY

(2023 - 2024) Freshman Representative; (2024 - Present) Member

August 2023 - Present

- Co-lead events, such as organized workshops, networking events, career advancement opportunities, and an end of year gala totaling 30+ attendees. Fundraised 600% of given funds in a single fundraising event.

Technical Skills: TypeScript, Javascript, React, React Native, Tailwind CSS, HTML/CSS, Node, AWS, Astro JS, Python, Java, C++, C#, Prisma ORM, Firebase, Tensor Flow, SKLearn, Procreate, FireAlpaca, Paint Tool Sai, Canva, MS Office.
